

The CMAXX Dust Collector is designed with revolutionary PD Technology for maximum cleaning performance. **Imperial Systems, Inc.** is your industry leader for advanced industrial air filtration products and services.

800.918.3013

No Bolts. No Leaks. No Problems.

That's the CMAXX guarantee. We like to keep things simple and that's why we've developed this helpful comparison chart - because you have an important decision to make and we have answers to all of your questions! If you're looking to make a dust collection equipment purchase, you're probably wondering...

- Does a vertical design improve efficiency?
- Will a third party be involved in manufacturing or installation?
- Which collector and filter combination can help me maximize filter life?
- Will my equipment purchase come with a warranty?

We're proud to be a supplier of top-quality industrial dust collection equipment. Check out the comparison chart on the next page for a full breakdown of our **CMAXX Dust Collector System** details and find out how we compare to the competitors.

User Friendly "Even Lock Technology"

- Seals the filter gaskets to the CMAXX to ensure 100% usage
- Discourages leaks from entering
- An easy way to change out filters without getting dirty

CMAXX
